

Good Farm Guide to Navigating Regulations

WEBINAR SERIES

Increase your confidence in navigating farm compliance, find out what you need to know, where your compliance gaps might be, and where to go for further information and support.

Taranaki Catchment Communities through the Good Farm hub presents the Good Farm Guide to Navigating Regulations webinar series.

Presented by Perrin Ag, these webinars aim to increase your confidence in navigating farm compliance by providing you with the information you need to know, where you can go for further information and support, and how you might assess your own on-farm compliance requirements.

Information presented in the webinars draws from content developed in the Good Farm Guide to Navigating Regulations. We highly recommend you download a digital copy or purchase a physical copy of this resource guide prior to attending the webinar.

To receive your copy, please visit goodfarm.nz

Farmer feedback

"Streamlines my time investment in understanding all this"

"(It's) empowering because if you are really unsure this gives you some awareness to know who to go to or where to go."

"The reference document was brilliant, 10/10. An excellent resource that had everything you would expect and the structure made it super readable."

"It feels less daunting now."
