

Empowering Farmer Compliance

Develop the skills you need to confidently assess your farm's compliance at home, identify the gaps and find out where to go for further information and support.

These workshops are designed to help you get on top of regulation and make compliance easier and less costly by empowering you with the skills to get it sorted.

Work out what you can do yourself, where you might need additional support and where to go for help.

Workshops will be delivered to small groups with content tailored to farm business and location.

Designed and led by Perrin Ag, with input from regional councils and key industry experts.

What's in it for you?

- ✓ Understand the compliance requirements of your farm business.
- ✓ Save money by developing skills to help you confidently assess your farm compliance.
- ✓ Keep costs down by identifying work you can do yourself and being prepared if you need expert help.
- ✓ Know who to go to for what support when needed.
- ✓ Tap into the knowledge and expertise of the Perrin Ag team and get your compliance questions answered.
- ✓ Prioritise your farm's immediate compliance needs and identify where you need to invest.
- ✓ Create a solid foundation for developing an effective Integrated Farm Plan (IFP).
